

International Helipad Database for Helicopters at HAI HELI-EXPO 2015

Hospital helipad information is cataloged by every operator, but it has rarely been shared, until now. This platform goes a step beyond only sharing by also storing information like satellite maps, radio frequencies, weather, phone contacts, and more. In the future, this application may be useful for additional sectors, such as off-shore, international, and disaster relief.

Directions: Level III South

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
